Why be a Chamber Member

Increase your visibility in the community

As a new member of the chamber, you will be listed in the chamber business directory, be given the opportunity to appear in our Tuesday @ 10, tagged on Facebook and can have the opportunity to be mentioned in other chamber publications. You also can grow your business by advertising with the chamber and sponsoring events.

Membership brings credibility to your business

According to a recent study, consumers are 63% more likely to utilize products and services from businesses that are members of their local chamber. You can increase positive perception among consumers and business owners when you're identified as a member of a chamber of commerce.

Make business contacts

The chamber's fundamental mission is to generate more business activity for the community. The chamber initiates more business-to-business commerce and more opportunities for networking and connecting local professionals than is available through most other local organizations.

Promotion and publicity

With a chamber membership, you can reach potential clients through member exclusive advertising and opportunities for business-to-business advertising and publicity.

Acquire customer referrals

Every day, your local chamber receives calls from individuals and businesses looking for potential vendors, and chamber members typically recommend chamber members.

Create networking opportunities

Chambers have numerous committees and serving on one of them provides numerous networking opportunities as well as professional leadership development. You can build your business while promoting developments of keen interest to local businesses and the community at large.

***"It turns out that building
a house doesn't have
to be more expensive
than buying an existing
home." — Danny & Miles***

Meet Danny and Miles

With a new job, new dog, and new baby on the way, newlyweds Danny and Miles knew that they needed a bigger home. When they couldn't find their dream home in the existing market, they decided to build new with Eastbrook Homes.

Eastbrook Homes got to work right away, walking Danny and Miles through every step of the building process. They worked with Eastbrook's interior designers in our Home Creation Studio, narrowed down their specific needs and options, and approved our plans to deliver a custom-built Violet Home in Eastbrook's Cook's Crossing community in Byron Center, Michigan.

Home Building Journey?***

Building Guide Today!**

Keep reading about their home building experience!

What made you start looking at homes?

Our goal when we got married was to rent housing for as short of a time as possible. Once we got pregnant and Danny got a new job working from home, we decided that we would need more space.

What was your experience like looking at existing homes?

We would search for homes for fun but we could never find exactly what we were looking for. If we both agreed on a location, we couldn't find a house that would meet our needs and was within our budget, or vice versa.

What brought you to Eastbrook?

Miles grew up in an Eastbrook community and her parents had a great experience building with them (twice!), so it was an easy decision.

Why did home building seem like a better fit for you?

We both have always had a dream of building our own home. We love the idea of customizing every living space and moving into a home that doesn't need any work done.

What advice would you give to other young couples or individuals who are considering home building?

To other young couples who want to build— it's completely doable! Don't be afraid to look into the home building process because it doesn't have to be more expensive than buying an existing home!

If you're interested in learning more about building or buying new with Eastbrook Homes, our team is here to help. Reach out today with your questions and dreams, and we'll help turn them into a reality.
